

re/start your career: switch to cybersecurity

About the program

Cybersecurity
training for
career switchers

ABOUT THE PROGRAM

Dream to start your career in cybersecurity?

**HERE IS
YOUR
CHANCE**

ISSP, a global cybersecurity service provider, in partnership with the Toronto Metropolitan University (Canada), BazalT recruiting platform (Ukraine), and supported by the Ministry of Digital Transformation of Ukraine launch a **FREE 3-month educational program** for talented people who dream to start their career in cybersecurity and pursue a SANS GIAC certification.

re/start program will choose 30 Ukrainian career switchers who are eager to learn about cybersecurity, wish to embark on a new career path, and meet the eligibility requirements for a foundational cybersecurity certification course for beginners.

**KEY TOPICS
ARE COVERED
IN THE COURSE**

Computer Components & Concepts

OS, Containers, and Virtualization

The Web

Linux

Networking Fundamentals

Practical Programming & Concepts

Windows Foundations

Advanced Computer Hardware

Security Concepts

Offensive Security Concepts

Database Servers and Email Servers

Network and Computer Infiltration

More information regarding the course you may find via [this link](#).

WHY IT'S SUCH A UNIQUE OPPORTUNITY

The cybersecurity industry is **one of the most demanding** in terms of qualified specialists since the talent shortage is one of the biggest among IT specialties.

SO!

Our 3-month interactive learning program for career switchers provides students with core knowledge and practical skills in computer science, IT, and security needed to kickstart a career in cybersecurity.

The training modules will be offered through an online platform and include different learning methods such as reading materials,

video lectures, hands-on labs, and online or in-person meetings with a mentor in Kyiv.

The learning program will also help students who are new to IT & cybersecurity industries to start their professional career and find their first IT job.

THE PROGRAM WILL ALSO SUPPORT YOU WITH

Developing your soft skills

Writing CVs and motivation letters

Communicating with potential employers

Participating in interviews

Conducting analysis of the IT job market

Deadline for applications

March 15

Start of the program

April 24

Want to apply

WHO CAN APPLY FOR THE PROGRAM

A program opens for all Ukrainian aged 25 to 60 who are qualified by the following criteria:
